The following is a statement from Benjamin Corb, public affairs director for the American Society for Biochemistry and Molecular Biology:

"The American Society for Biochemistry and Molecular Biology applauds the Supreme Court's decision to reject the Trump administration's attempt to dismantle the Deferred Action for Childhood Arrivals (DACA) program. The administration has attempted to end this vital program for more than two years, and these actions are damaging not only to the immigrants protected by DACA, but to 12 Tflhe imot 5.4029 (ELECTION 1) and the second second 1.
